

Property type : Apartment

Swimming pool : Yes

House area :

94 m²

Location : Teulada

Bedrooms : 3

Bathrooms : 2

This four-story apartment complex consists of a commercial ground floor and one apartment per floor, and was built in 2009. All floors are accessible by elevator or staircase. On the upper floor there is a roof terrace. The entire building has been recently renovated.

The entrance of the apartment, through a security door, leads into a long hallway with the seating area on the left and the bedrooms on the right. There is a bright lounge, dining room and open kitchen with all modern amenities. A large double-sided, double-glazed aluminum sliding door gives access to a small terrace.

There are three bedrooms, two modern bathrooms and a separate laundry area adjacent to a cosy courtyard. All rooms have hot/cold air conditioning units. All windows are double glazed, sound resistant and have shutters.
