You enjoy dominating your own space by imprinting it with your unique style, letting the world fall back and the weight on your shoulders lighten once you enter the door to your home. But stepping outside, you love engaging in conversation with the neighbor, saying hi to their kids... and you can't help the peace it gives you getting to communicate with others and knowing they are close by. This amazing contrast makes you YOU, and the delicate balance must be maintained.

There is no better residence to experience this in than at this nice apartment which is on the first line of La Fosa Beach, a stone throw away from restaurants and other social joints. It is within a few minutes' drive to the next town and the golf course, making for a fun and merry stay.

The apartment is comprised of a spacious living room, a fully equipped kitchen, 3 expansive bedrooms (3 doubles) and 2 bathrooms. There is also a terrace from which you can sunbathe and enjoy spectacular views of the sea even as you get exposed to the wide open skies and cooling breezes that are unique to such a prime location. And the star-lit night sky!?! You will have to see it to believe it, with a dash of the Ifach Rock to complete the picture.

Access to the property is through a lift and there is ample parking space for you.
