A luxury apartment which is just 5 minutes away from the port, restaurants and discos, this fantastic property is made with great taste from the finishing to the minimalist décor to ensure that you have a unique experience from dusk to dawn, dawn to dusk.

Let's start off with the grand sitting room which has everything you need to make the space comfortable and convenient while still exuding an understated elegance and charm that is delicately balanced to showcase the room's grand features. And as the main entertainment zone, amplify each experience as the theatre you have always wished you had but never knew was missing.

Head over to the dining area if you want to have a meal or a drink while still enjoying the great natural light and tropical breezes as exposed by the wide glazed openings. And the kitchen is fully equipped and well organized with lots of storage space, counter space and laundry provisions which can accommodate the needs of everyone. Each of the 3 bedrooms is bright and airy with glazed doors that open to allow access to the generous terrace where you can sun bathe while enjoying spectacular views of the Mediterranean.

However, that's not all you have access to. There is a beautiful garden and pool with just a few neighbors to share with.

We are only a phone call away!
